TABLES	vi
FIGURES	viii
CHAPTER 1. EXECUTIVE SUMMARY	1-1
Background	1-1
Planning Goals and Objectives	1-1
Study Area Boundaries	1-1
Population Projections	1-2
Wastewater Collection.....	1-2
Collection System Needs	1-3
Wastewater Treatment	1-6
Wastewater Flows.....	1-6
Existing Treatment Facilities	1-6
Treatment Requirements.....	1-7
Existing Treatment Capacities	1-7
Preferred Treatment Alternatives.....	1-8
Improvement Costs	1-11
CHAPTER 2. INTRODUCTION	2-1
Background	2-1
Factors Affecting the Facilities Planning Study	2-1
Regulatory Changes	2-1
Population Increase	2-2
Aging Facilities.....	2-2
Planning Goals and Objectives	2-3
CHAPTER 3. PLANNING AREA CHARACTERISTICS.....	3-1
Study Area Boundaries	3-1
Physical Characteristics	3-3
100-Year Flood Plain Areas.....	3-6
Planning Agencies.....	3-6
Existing Land Usage	3-6
Population Growth.....	3-7
Historical Populations	3-7
Population Projections	3-8
Collection System Land-Use Plan	3-10
CHAPTER 4. EVALUATION OF EXISTING WASTEWATER FACILITIES	4-1
Description of Existing Collection System.....	4-1
Salt Creek	4-1
West "O" Street.....	4-1
Beals Slough	4-3

Haines Branch.....	4-3
Middle Creek.....	4-3
Antelope Creek	4-3
East Campus	4-3
Oak Creek	4-3
Little Salt Creek	4-3
Lynn Creek.....	4-3
Deadmans Run.....	4-4
Havelock	4-4
Regent Heights.....	4-4
Collection System Needs	4-4
Description of Existing Wastewater Treatment Facilities	4-4
Theresa Street Wastewater Treatment Facility.....	4-4
Northeast Wastewater Treatment Facility.....	4-10
Existing Treatment Capacity Analysis.....	4-13
Factors Affecting Treatment Capacity.....	4-13
Capacity Estimate Methodologies	4-23
Theresa Street WWTF Capacity Estimate	4-23
Northeast WWTF Capacity Estimate	4-26
Improving Capacity Estimates.....	4-27
Hydraulic Capacity Analysis	4-27
Hydraulic Profile Modeling	4-27
Theresa Street WWTF	4-28
Northeast WWTF	4-29
Lincoln Wastewater Residuals Management	4-30
Screenings and Grit.....	4-30
Primary and Secondary Sludges	4-30
Theresa Street WWTF Digested Sludge Handling and Disposal	4-31
Northeast WWTF Digested Sludge Handling and Disposal.....	4-33
Identification of Needs.....	4-35
Theresa Street WWTF	4-35
Northeast WWTF	4-36
Treatment Facility Capacity Summary.....	4-37
CHAPTER 5. WASTEWATER FLOW AND LOAD PROJECTIONS	5-1
Terminology.....	5-1
Average Daily Flow (ADF)	5-1
Maximum Monthly Flow (MMF).....	5-1
Peak Daily Flow (PDF).....	5-1
Peak Hourly Flow (PHF)	5-1
Infiltration and Inflow (I/I)	5-1
Peak Wet Weather Flow (PWWF).....	5-2
Existing/Historical Flows.....	5-2
Wet Weather Flows.....	5-3

Historical Wastewater Composition	5-5
Theresa Street WWTF Influent Wastewater Composition.....	5-5
Northeast WWTF Influent Wastewater Composition.....	5-9
Projected Waste Flows and Loads	5-14
Projected Flow Rates	5-14
Projected Peak Wet Weather Flows.....	5-17
Projected Wastewater Loadings.....	5-18
Projected Wastewater Solids Production Rates	5-21
Summary	5-23
CHAPTER 6. REGULATORY REQUIREMENTS	6-1
Current Water Quality Standards	6-1
State Stream Use Classifications	6-1
Salt Creek Classification.....	6-2
Nebraska Discharge Permitting System.....	6-2
Current Theresa Street WWTF NPDES Permit	6-3
Current Northeast WWTF NPDES Permit	6-4
Potential Future NPDES Permits	6-5
Potential Ammonia Effluent Limits	6-5
Current Wastewater Residuals Disposal Regulations	6-7
Screenings and Grit	6-8
Primary and Secondary Sludges	6-8
Reporting Requirements	6-11
Clean Water Act.....	6-12
RCRA Hazardous Waste Regulations, 40 CFR Part 261	6-12
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)	6-13
Evolving Regulations and Standards	6-13
Clean Water Act Reauthorization.....	6-13
Clean Water Action Plan.....	6-13
National Criteria Revisions - Water Quality Criteria and Standards Plan.....	6-14
TMDL Regulation.....	6-15
Nutrient Criteria	6-16
Bacteria Standards.....	6-17
Whole Effluent Toxicity	6-17
Sanitary Sewer Overflows (SSO)	6-18
Sediment Criteria	6-18
Stormwater Discharge Regulation.....	6-18
Clean Air Act Amendments (CAA)	6-18
CHAPTER 7. BASIS OF PROJECT DEVELOPMENT	7-1
2002 Lincoln-Lancaster County Comprehensive Planning	7-1
Design Period and Project Staging	7-1

Economic Evaluation.....	7-1
Present Worth Analysis.....	7-1
Assigning Costs	7-2
Capital Costs	7-2
Collection System	7-3
Treatment Facilities.....	7-3
Site Work	7-4
Foundations	7-4
Yard Piping	7-4
Electrical and Instrumentation.....	7-4
Treatment Facilities.....	7-4
Land	7-4
Collection Facilities	7-4
CHAPTER 8. DEVELOPMENT AND EVALUATION OF ALTERNATIVES	8-1
Anticipated Collection System Needs	8-2
Salt Creek	8-3
West "O" Street.....	8-7
Beals Slough	8-8
Haines Branch.....	8-8
Middle Creek.....	8-9
Antelope Creek	8-9
East Campus	8-10
Oak Creek	8-10
Little Salt Creek	8-11
Lynn Creek.....	8-11
Deadmans Run	8-12
Havelock	8-13
West Stevens Creek	8-13
Summary of Collection System Needs	8-14
Theresa Street WWTF	8-14
Description of Alternatives	8-14
Common Alternative Components	8-18
Key Treatment Issues.....	8-19
Theresa Street Alternative 1 - Pretreatment of Cook Foods Wastewater	8-19
Theresa Street Alternative 2 - Treat Side-Streams from Solids Processing	8-21
Theresa Street Alternative 3 - Pretreat Cook Foods and Ammonia Side-Stream Treatment	8-23
Theresa Street Alternative 4 - Expand Activated Sludge System.....	8-24
Summary of Theresa Street WWTF Alternatives.....	8-26
Theresa Street WWTF Basic Improvements	8-28
Northeast WWTF	8-29
Northeast WWTF Basic Improvements	8-31

CHAPTER 9. PREFERRED WASTEWATER MANAGEMENT SYSTEM	9-1
Preferred System Description	9-1
Collection System Improvements	9-1
Theresa Street WWTF Improvements	9-4
Northeast WWTF Improvements	9-4
Wet Weather Flows.....	9-4
General Considerations	9-4
Preferred Treatment System Costs.....	9-8
Implementation of Preferred System	9-8
Collection System	9-13
Theresa Street WWTF	9-13
Northeast WWTF	9-14
Anticipated Capital Expenditures	9-15

GLOSSARY

APPENDICES

TABLES

<u>No.</u>		<u>Page</u>
1-1	City/County Population Projections	1-2
1-2	Wastewater Flow Projections	1-6
1-3	Anticipated Effluent Ammonia Limits	1-7
1-4	Capacity Summary - Lincoln Wastewater Treatment Facilities	1-8
1-5	Tier I Improvement Costs	1-11
3-1	Historical City/County Population Growth.....	3-8
3-2	City/County Population Projections	3-10
4-1	Primary Factors Affecting Treatment Capacity of an Activated Sludge System.....	4-14
4-2	Anticipated Effluent Ammonia Limits	4-15
4-3	Summary of Historical Peak Flow Factors	4-20
4-4	Nitrification Capacity Summary - Existing Theresa Street WWTF	4-26
4-5	Nitrification Capacity Summary - Existing Northeast WWTF	4-26
4-6	Theresa Street WWTF Anaerobic Digester Size and Loading Summary.....	4-31
4-7	Theresa Street Sludge Dewatering Facility Summary	4-31
4-8	Theresa Street Biosolids Pollutant Concentration Data	4-32
4-9	Northeast WWTF Anaerobic Digester Capacity Summary.....	4-33
4-10	Northeast WWTF Land Application Facilities	4-34
4-11	Northeast Biosolids Pollutant Concentration Data	4-35
4-12	Nitrification Capacity Summary – Existing Lincoln Wastewater Treatment Facilities.....	4-37
5-1	Historical Wastewater Flows	5-2
5-2	Design Dry Weather Flow Values	5-3
5-3	1995-2001 Theresa Street WWTF Influent Characteristics	5-9
5-4	1995-2001 Northeast WWTF Influent Characteristics	5-9
5-5	Wastewater Flow Projections	5-14
5-6	Peak Wet Weather Flow Components	5-17
5-7	Peak Wet Weather Design Flows.....	5-17
5-8	WWTF Loading Rate Projections.....	5-18
5-9	Projected Solids Production Rates	5-21
5-10	Summary of Projected Flows and Loads	5-23
6-1	NPDES Permit Limitations - Theresa Street WWTF	6-3
6-2	NPDES Permit Monitoring Requirements - Theresa Street WWTF	6-4
6-3	NPDES Permit Limitations - Northeast WWTF	6-5
6-4	NPDES Permit Monitoring Requirements - Northeast WWTF	6-5
6-5	Anticipated Effluent Ammonia Limits	6-6
6-6	Summary of 503 Regulations Applicable to Land Application of Biosolids	6-9
6-7	Summary of Class A Biosolids Criteria	6-10
6-8	Summary of Class B Biosolids Criteria	6-10
6-9	US EPA Proposed Nutrient Criteria for Ecoregion VI	6-17
7-1	Construction Cost Estimation	7-2

8-1	Summary of Recommendations For Existing Collection System.....	8-15
8-2	Lincoln Future Wastewater Collection System Served Acreages (25 year - Tier I).....	8-16
8-3	Lincoln Future Wastewater Collection System Service Acreages (50 year - Tier II)	8-17
8-4	Treatment Capacity Scenarios to Meet Year 2025 and Projected Wastewater Flows at the Theresa Street WWTF	8-18
8-5	Theresa Street Alternative 1 - Year 2025 Required Improvements.....	8-21
8-6	Theresa Street Alternative 2 - Year 2025 Required Improvements.....	8-23
8-7	Theresa Street Alternative 3 - Year 2025 Required Improvements.....	8-24
8-8	Theresa Street Alternative 4 - Year 2025 Required Improvements.....	8-26
8-9	Alternative Capital Cost Summary	8-26
8-10	Northeast WWTF Phase I Expansion Cost.....	8-30
9-1	Summary of Recommended Trunk Sewer Improvements to Serve Tier I Needs (A & B Priority)	9-2
9-2	Summary of Recommended Collection System Improvements to Serve Tier II Needs	9-3
9-3	Theresa Street WWTF Estimated Capital Improvement Costs	9-12
9-4	Northeast WWTF Estimated Capital Improvement Costs	9-13
9-5	Tier I Improvement Costs	9-15
